

House rules - Department 18

A positive environment creates welfare

Why house rules?

House rules are a set of rules, decided by the residents of your department. 'The house rules' is about how to avoid bothering our neighbors unnecessarily. As a resident it is completely natural, and in everyone's interest, to show respect for one's neighbors. As a resident it is you who is responsible for the behavior of your guests both in your home and in the department areas. Not everything can be included in 'the house rules'. Although everything isn't written down, your common sense will tell you where the boundaries lies.

Consideration, respect and conversation

Conversation, consideration and respect works much better on the welfare between us than a lot of rules. Therefore, it is important that we talk to each other. If a neighbor bothers you, it is best that you talk to that person instead of writing a complaint right away. If you are having troubles starting the conversation, you can always seek help from Vivabolig's resident counselors. You can find the contact information on the resident counselors on www.vivabolig.dk.

Changes

It is only possible to make and adopt changes in 'the house rules' at the department meeting or by a ballot. Proposals for changes may come from the department board or the residents, who must submit a written proposal within the deadline before the department meeting. Once 'the house rules' has been approved, it applies to all residents of the department and is a part of the rental agreement between you and Vivabolig. The last adopted rules are the ones that applies, no matter when you have moved to the department. Therefore, we recommend that you read and save 'the house rules' and keep being updated on changes in 'the house rules', 'the right of disposal' and 'the maintenance rules'.

Resident democracy

We hope that you will take an active share in the resident democracy and contribute to our community. Together we can create the right setting and opportunities for our department. You can attend the department meeting, activities or contact the department board, if you want to be a part of a committee, have ideas or want to start up activities.

General advice

We advise you to take out a contents insurance, as the department's insurance does not cover your personal belongings in case of e.g. fire and water damage.

Always keep stairways, elevators, basements and other common areas clean of your personal belongings, as these works as escape routes.

To avoid moisture condensation and mold it is important that you effectively open your windows and doors a couple of times a day e.g. 5 to 10 minutes. Especially after bathing.

Waste

You must deliver your waste according to the instructions from the local authority about waste disposal.

Waste must be delivered in the underground container. If it is full, please use the next one that isn't.

It is important that you close the waste bag properly to reduce odor and wastage.

Bottles, glasses etc. must be delivered in the respective underground containers. The same goes for cardboard/paper and electronic waste.

Behind the estate office in the department you will find a container for inflammable waste as well as an 'environment station' for waste like e.g. electronic, paint etc.

If you lose any waste on stairways, basement, sidewalk or other common areas, you must clean it up right away.

Satellite dish and signposting

You may install satellite dishes, signs for advertising or the like, when you have Vivaboligs written permission and directions for placement.

Common areas

As residents in this department we all need to take care of our gardens and do not damage plants, trees and other vegetation.

Grilling

You are allowed to grill on your balcony, if you remember to show consideration for your neighbors.

Pets

Your department has decided that it is not allowed to have dogs or cats as well as snakes, reptiles and insects.

All departments allow a cat or a dog visiting you for up to 3 weeks a year. The pet must be registered in writing at the estate office.

Noise

You must show consideration for your neighbors when you listen to music, are watching tv or use any kind of machines.

It is expected that you take special considerations from 20.00pm to 07.00am on week days and from 22.00pm to 08.00am at weekends (Friday to Sunday). Should you have a party, it is a good idea to inform your neighbors in advance.

Pests

To avoid rats and other pests you must not feed birds or other wild living animals on the department areas, neither on or from your balcony.

Best regards
Vivabolig

Department board
Department 18

Decided at the department meeting 22.05.2018.
